3/29 Notes
Creative Director: Mengxi
Designer: Arielle

Design Aesthetics:
Organic, colorful, but simple shapes (do it with illustrator first and paste the images in?)
Different cockatiels' cutouts
Modern uiux design
Choose of color palette (from coloors.com?)

Navigation Bar: cutouts of birds in different gestures, movements

Home Page: Attractive, Playful, A paragraph of cockatiel description from wikipedia

4/12 Notes
Design Element:
- The dots in pattern design can also be the division line of each paragraph, to unify the overall design.
- Limit the color palette to 4-5 to avoid overwhelming visual effects

Layout:
- Paragraphs don't necessarily have to be on the same vertical line, shifted from each other a little bit to have a more dynamic page.
-

Navigation Bar:
- Cockatiels can be different individuals to add playfulness
Put Navigation Bar at the top so that it can be more directly seen and accessed

Content:
- Adjust line height and appropriate distance between each paragraph
- Images of different breeding in the mutation sections
- Can delete redundant information from Wikipedia
